Matt/Eric

I could not answer her last questions with great confidence. I am not sure what process was put in place for them to review the data. Can you guys take a look at this part I cut and pasted below. I believe she just needs the un and pw to pull the data down for review. Is this the process established? What is the subscription information?

Second:

I think I've found the site where the provider's data will be posted for the 24 hour review period. Please verify:
https://www.epaos.org/scribe_net/admin_tools/systemsummary.aspx

Do I need a subscriber name/password in order to see data?

I see that there are two entries for Las Conchas Wildfires EPA –
1461 Las Conchas Wildfires EPA USEPA Region 6 1 6/30/2011 8:02:18 PM
1462 Las Conchas Wildfires EPA USEPA Region 6 5 7/4/2011 4:55:01 PM

When I click on the details link of the second entry, I notice that the last published date is today, but again, I cannot see any data.

Janine

Sorry for the late response. I've been taking care of a sick kid the last few days.

Melissa/Janine,

Please work with Kim to get her questions answered but keep me in the loop with what's going on.

Thanks

Hi Eric –

I was wondering if you've had a chance to look over the questions in my e-mail below.

Thanks.

Kim

Hi Matt-

I'm sorry about the phone cutting off. It has a mind of its own.

I wanted to talk to you about several things:

First:

I've put together a database for our air monitoring person to use when he's ready to upload data to SCRIBE.

Below are questions I have:

LocationZone – what is the field length?

Sub_Location (Monitoring table) – what does this correspond to in the Samples table?

Mon_Parameter – please add Americium-241, Plutonium-239/240, and Strontium-90.

Pump Fault – I can't tell if the field length is 1 or 3 and if the valid value is supposed to be Y,N or Yes, No. The valid value table says Yes, No, but the field length says (1)

We're going to have to let you know what new items need to be added to the valid values of Result_Qualifier and Analytical_Method as soon as we get the data in from our labs.

Second:

I think I've found the site where the provider's data will be posted for the 24 hour review period. Please verify:

https://www.epaossc.org/scribe_net/admin_tools/systemsummary.aspx

Do I need a subscriber name/password in order to see data?

I see that there are two entries for Las Conchas Wildfires EPA –

1461 Las Conchas Wildfires EPA USEPA Region 6 1 6/30/2011 8:02:18 PM

1462 Las Conchas Wildfires EPA USEPA Region 6 5 7/4/2011 4:55:01 PM

When I click on the details link of the second entry, I notice that the last published date is today, but again, I cannot see any data.

Bill should be in tomorrow, and we'll contact you as soon as he gets settled in regarding SCRIBE training.

Thank you!

Kim
